#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

**Claims 1-5, 26, 29 & 30** are rejected under 35 U.S.C. 102(b) as being anticipated by Habeck *et al.* (US 6,409,995, 6/25/2002, see IDS). The patent discloses several cosmetic formulations comprised of compounds that read on said claims and can be found in columns 5-9 of the '995 patent: wherein R<sup>5</sup> = cylcohexyl (this reads on the instant claims wherein n<sub>1</sub> is 1, A is O, and R<sub>3</sub> is cyclohexyl; this applies to when R<sub>1</sub> and R<sub>2</sub> are H, alkyl, cycloalkyl, or form a ring together). Further, Claims 1 & 7 of the '995 patent disclose compounds which read on the instant application, wherein A is N(R<sub>5</sub>) and R<sub>5</sub> is hydrogen or C<sub>1</sub>-C<sub>5</sub>-alkyl.

#### ***Claim Objections***

**Claim 5** is objected to because of the following informalities: each claim must end with a period. Appropriate correction is required.

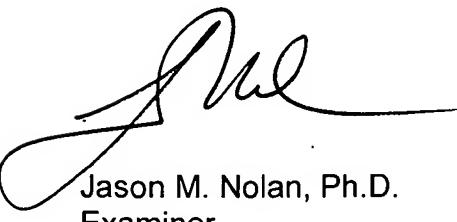

**Claim 22** is objected to because of the following informalities: the term "dehydratisating" is unknown and not defined in the specification. Appropriate correction is required.

**Claim 23** is objected to because of the following informalities: the structure of formula (7) does not have a nitrogen atom between R<sub>1</sub> and R<sub>2</sub>. Appropriate correction is required.

**Claims 6-21** are objected to as being dependent upon a rejected base claim.
